“It’s a privilege to take care of seniors. I am reminded of my grandparents and that makes me happy.”

About Ana Lopez, MD

Dr. Ana Lopez has provided quality, compassionate care for patients in the U.S. and South America. Her warm manner and passion for helping seniors understand their health and achieve their most ambitious health goals are what endear her to her patients. "It's a privilege to take care of seniors," Dr. Lopez says. "I am reminded of my grandparents and that makes me happy."

When she has some off time, Dr. Lopez enjoys reading, exercising and spending time with her husband, three daughters and (as she calls them) her "two old, cute dogs." Some day, Dr. Lopez would like to visit Machu Picchu in Peru.
