
“I take time to make sure my patients really understand what’s going on with them and teach them about prevention so they can regain control of their health and take better care of themselves.”

About Jennifer Castilloux, DO

Since Dr. Jennifer Castilloux was young, she’s always been interested in science. “All the complexities of the human body and pathology piqued my interest,” Dr. Castilloux says. Specializing in internal medicine, Dr. Castilloux rounds in skilled nursing facilities in Broward and Miami-Dade counties.

“I chose to work with seniors because I believe they deserve a physician that will advocate for their needs, especially if they are unable to do so for themselves. I take time to make sure my patients really understand what’s going on with them and teach them about prevention so they can regain control of their health and take better care of themselves,” Dr. Castilloux adds.
