“There is always an opportunity to make a positive impact daily.”

About Alexander Garcia, MD

Dr. Alexander Garcia received a bachelor’s degree in Psychology before discovering a passion for medicine while working on volunteer mission trips with his now wife. He enrolled at Nova Southeastern University College of Osteopathic Medicine, where he earned his master’s degree and Doctor of Osteopathic Medicine. He completed his residency in internal medicine at the University of Miami Hospital.

Dr. Garcia believes that the doctor patient relationship should be built on trust, respect, and reliability and he works tirelessly toward that goal. When asked what his favorite part of his profession is, he responded, “Sometimes it is the patient themselves, other times it is a family member or friend, but there is always an opportunity to make a positive impact daily.”
