“Seniors are such a deserving population, and I enjoy helping them make decisions for better health.”

About Michael Joseph, MD

Dr. Michael Joseph knew from age 12 that he wanted to be a physician, and he spent many years treating patients in hospitals. Having seen how the right care and follow-up can reduce avoidable hospital stays, he's on a mission to meet that need. "It brings me great pride to now work for a company that provides affordable VIP care," Dr. Joseph says. "Seniors are such a deserving population, and I enjoy helping them make decisions for better health."

When he's not working, Dr. Joseph likes to spend time with family and friends, exercise, play tennis, see new movies and shows, sing, play piano, and travel. While he has visited many places around the world, his favorite so far has been Rio de Janeiro, Brazil.
