

**“I really enjoy helping my patients. I treat them like family, and I love to see them live longer, healthier, and happier lives.”**

#### **About Fabienne Gabriel-Lestrail, ARNP**

Being raised by her grandma gave Fabienne Gabriel-Lestrail great respect for seniors—and sparked her interest in healthcare at a young age. She started off working with patients who had dementia or Alzheimer’s and has been passionate about senior care ever since. Fabienne Gabriel-Lestrail, who is an advanced registered nurse practitioner, says, “I really enjoy helping my patients. I treat them like family, and I love to see them live longer, healthier, and happier lives.”

During down time, Fabienne Gabriel-Lestrail likes to keep up with medical research, soak up quality time with her husband and three children, and spend time at church. She also enjoys travel and dreams of visiting France, Israel, and Dubai.
