“I wanted to help rebuild the healthcare system in my country, which is Haiti, and to help senior citizens.”

About Wisly Jean Baptiste, MSN, FNP-BC, BSN, ARNP

Working in healthcare was a childhood dream of Wisly Jean Baptiste’s. “I wanted to help rebuild the healthcare system in my country, which is Haiti, and to help senior citizens,” he explains. He is passionate about caring for his senior patients and wants to address the “healthcare disparities, communication difficulties between patients and providers, culture barriers, and provider stereotyping.” Wisly Jean Baptiste strives to “keep my patients happy” and always treats them with empathy and loyalty. He wants patients to have control in the decisions surrounding their healthcare.

In his free time, Wisly Jean Baptiste can be found reading his bible, listening to gospel music, and attending church. He also enjoys playing piano.
