“I am making a difference in my patients' lives by focusing on their unique needs to improve health outcomes.”

About Afsheen Qazi, APRN, FNP-BC

Afsheen Qazi's career in medicine began with an interest to care for the elderly. “I wanted to complete my nurse practitioner license so that I could have a deeper knowledge and broader impact on my patients,” she explains. Education and empathy are two key values in her practice. “I guide them to make positive changes that can improve their health outcomes,” she says. She loves serving as an advocate for patients and helping them “live longer and happier.” She explains, “I am making a difference in my patients' lives by focusing on their unique needs to improve health outcomes.”

When not caring for patients, Afsheen Qazi can be found enjoying time with family and friends. She especially likes going on walks with her daughters.
