

“I am here to help them and guide them into a better health.”

About Maria Ferrante, MD

Dr. Maria Ferrante finds it very rewarding to help others. She explains, “I chose this profession really early in life, or as I like to say, the profession chose me.” She considers the senior population to be “unrecognized heroes” and likes working with patients to develop the best treatment plan. “I am here to help them and guide them into a better health,” she says. She emphasizes the importance of healthy lifestyle changes and loves seeing her patients’ faces when they feel better. “I love what I do, and I will always be here for them,” she says.

When not with patients, Dr. Ferrante can be found spending time on the water. She loves rowing, sailing, and swimming with friends and family. She is also an animal-lover.
