“I deliver the best service I can provide on each patient encounter since I think the doctor-patient relationship can be very meaningful and can have a high impact.”

About Maria Victoria Sanchez Di Sclafani, MD

Dr. Maria Victoria Sanchez Di Sclafani knew at a young age that she wanted to be a doctor. She believes that making a positive difference in a patient’s life is the greatest part of her profession. “I deliver the best service I can provide on each patient encounter since I think the doctor-patient relationship can be very meaningful and can have a high impact,” she explains. She wants her patients to know “that they are not alone.” She adds, “I am on their team and want to provide them with my knowledge, expertise, and everything I can to improve their health.”

In her down time, Dr. Sanchez Di Sclafani loves exercising and spending time with family. She also enjoys traveling and trying food from around the world.
