

**“Health is one of our greatest possessions, and helping patients to value, maintain it, and preserve it is truly the most meaningful impact I am able to have on the world around me.”**

**About Aneta Spadaccini, MSN, NP**

Aneta Spadaccini views medicine as “the highest and noblest form of public service and the purest source of professional fulfillment and personal happiness.” She explains, “Health is one of our greatest possessions, and helping patients to value, maintain it, and preserve it is truly the most meaningful impact I am able to have on the world around me.” She loves learning about her patients’ unique lives and strives to foster an environment where “each patient not only feels respected but also understood and cared for.” She adds, “Seniors deserve our greatest respect and the best medical care.”

In her free time, Aneta Spadaccini enjoys running, traveling, and spending time with family and friends. She also loves music and comedy.
