“The main reason to be here is to improve their health and wellbeing.”

About Lina Ramirez, M.D.

Dr. Lina Ramirez was born and raised in Colombia, where she “witnessed the multiple needs of the isolated and less fortunate communities.” These experiences inspired her at an early age to help people through “health education and prevention.” She explains, “The main reason to be here is to improve their health and wellbeing.” She loves listening to patients and strives to create a judgement-free environment, where patients feel comfortable and safe. “I like to talk directly and openly about any problems or concerns they may have,” she adds.

In Lina’s free time, she can be found spending time with friends and family or cheering for her son at his soccer games. She also enjoys cooking and attending concerts.
