**“I want them to know that I really care about them.”**

### About Saliconte Charles, MSN, APRN

Saliconte “Sali” Charles is committed to providing patients with exceptional and compassionate care. He explains that his “passion” for the well-being of mankind led him to pursue a career in healthcare. He believes in caring for patients holistically. Specifically, Sali aims to treat patients “as a whole person,” rather than only focusing on symptoms. He explains that he likes taking the time to truly “understand” his patients and their health goals. “I want them to know that I really care about them,” he says.

When he is not caring for patients, Sali can be found enjoying quality time with his family, including his three children and his dog, Duke.
