“I love working with patients to improve their health and life in general.”

About Yingying Ni, MSN, APRN, FNP-C

Yingying Ni, has had a passion for healthcare since childhood — always drawn to helping those who are sick and in need. She chose to work with the senior population out of a deep desire to support this vulnerable group in staying healthy and enjoying their golden years. "I love learning from my patients and developing a relationship with them," she says.

Yingying builds strong bonds through compassionate listening, trust, and partnership. Her focus is on helping patients optimize their health, reduce risk factors, and live to their full potential. "I love working with patients to improve their health and life in general," she says. For Yingying, every patient encounter is an opportunity to make a meaningful difference.

When not with patients, Yingying enjoys traveling, listening to music, and spending quality time with family and friends.
