“"I believe in treating every patient with kindness, respect, and the same care I would want for my own family and friends.”

About Yenixis Castillo, MSN, APRN

Yenixis Castillo brings more than 18 years of healthcare experience and a genuine passion for helping others to her practice. Throughout her career, she has developed a deep appreciation for caring for older adults, whose complex medical needs require compassion, patience, and clinical expertise. "I find it rewarding to help seniors manage chronic conditions, maintain their independence, and improve their quality of life," she says.

Yenixis builds relationships through active listening, compassion, and treating every patient with dignity and respect. She provides personalized, individualized care tailored to each patient's unique needs and goals. "I believe in treating every patient with kindness, respect, and the same care I would want for my own family and friends," she says.

When not with patients, Yenixis enjoys traveling, exploring different cultures, spending time with family and close friends, and finding inspiration in art, music, and the ocean.
