“My goal is to make healthcare simpler, more accessible, and meaningful to my patients.”

About Caio Furtado, MD

Dr. Caio Furtado was inspired to pursue medicine by two powerful influences — his aunt, a nurse in Brazil whose compassion and dedication earned the deep trust of those she served, and two years of voluntary missionary service that reinforced his values of compassion and service. "I wanted to serve and make a difference in people's lives," he says. He chose to work with the senior population because he believes they deserve personalized, compassionate, and proactive care. "I know healthcare can sometimes feel complicated and overwhelming," he says. "My goal is to make healthcare simpler, more accessible, and meaningful to my patients."

Dr. Furtado builds relationships through genuine care, presence, and trust — listening carefully, making eye contact, and taking time to truly understand his patients' concerns. "The greatest impact is trust," he says. "When a patient trusts their doctor, they will be more involved in their care and more likely to make healthy changes in their lives."

When not with patients, Dr. Furtado enjoys playing volleyball, running on the beach, and exploring the magic of Disney and Universal parks in Orlando.
